Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicants' election without traverse of the invention of Group II, claims 10-12, on- filed 09/24/2003 is acknowledged.
2. Claims 1-9 have been withdrawn from further consideration pursuant to CFR 1.142(b) as being directed to a nonelected the invention (Group I), there being no allowable generic or linking claim.

Specification

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
4. Following title is suggested: A METHOD OF AN OPTICAL SCANNER USING AN ELECTROMAGNETIC ACTUATOR.

Claim Objections

5. Claim 10 is objected to because of the following informalities:

In claim 10, "its" (line 3) should be replaced with -- the first core section --;
the term "its" (line 5) should be replace with -- the second core section --.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claim 10 is rejected under 35 U.S.C. 102(b) as being anticipated by JP (07-131136) herein after '136.

As applied to claim 10, '136 discloses a method of forming the stationary member (21, Fig. 2), the movable member (22) and the support member (23) on a single substrate (20) by means of photolithography and plating; and removing the substrate from under the movable member so as to make the movable member (23) to be supported by the substrate by way of the support member (see sequence of Fig. 2a-2f).

Claim Rejections - 35 USC § 103

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over JP (07-131136).

Regarding to claim 11, it would have been an obvious matter of design choice to choose any desired a substrate, since Applicants have not disclosed that the claimed specific the silicon substrate, solves any stated problem or is for any particular purpose and it appears that the invention would perform well with substrate material of JP '136.

Allowable Subject Matter

9. Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

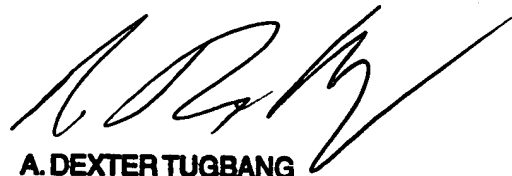

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tai Van Nguyen whose telephone number is 703-308-1791. The examiner can normally be reached on M-F (7:30-4:30).
